

their action and to you if you so desire. The other thing is in the press room, the lighting where the members of the press sit by the typewriters and things like that, it is not well lit. We think it should be and we have asked Senator Goodrich to go in that also. Also to get the cost of putting a carpet in there so there'll be carpet on the runway where they and we cause a good deal of the traffic. Now, there's one other thing that maybe is none of my business but I've had certain complaints about that. I presume, because I happen to be the chairman of the Executive Board. There's some committees in which the membership for some reason or the other are not sufficient to even have a quorum in order to start a committee hearing. Now, I don't know how to improve that but I would say this to the membership. If any member is not liking, so to speak, the membership in the committee on which he serves, if he can find someone else who's willing to exchange who has the same problem, I would presume that maybe it could be arranged. Now, on the Committee on Committees, I understand there are some times when some of the members do not appear very often. Now, I'd be the one, for example, would say that after the Committee meets...the Committee on Committee meets on the basis they're in operation for. If it were me, I'd lose a good deal of interest in the committee from that time on. I would only say if any member or members of that committee are in that position because they are now meeting more now than they normally do under the leadership of Senator....I shouldn't forget his name....but I....Senator Whitney, and I think he does an excellent job. Because of his leadership and his activity, they are meeting quite often. But, what I'm trying to say, if a member no longer desires to serve on the committee, it would seem to me he ought to go to the chairman and say he'd like to get off and let the chairman get somebody else. These are not controversial things, they're just for the benefit and effect of the committees in the Legislature.

PRESIDENT: Thank you, Senator Carpenter. Senator Whitney, did you care to respond?

SENATOR WHITNEY: Mr. President and members of the Legislature. I would like to respond to that. We've only had one Committee on Committees meeting. We're going to have 60 to 70 appointments to approve and we're going to have to have a quorum there. We're not having a quorum when we start sometimes and so we've decided to meet at 8:00 o'clock on Tuesday morning. Eight o'clock on Tuesday mornings starting a week from next Tuesday and see if we can't have men show up at that time. It seems they promise me they'll be there at noon if we have a noon meeting. Or 1:00 o'clock if we have a 1:00 o'clock meeting and then somebody else holds another meeting or something. And, then they have to go to that. So, we decided to go to 8:00 o'clock. I hope that we can have those meetings at that time.

PRESIDENT: The Chair recognizes Senator Dickinson. For what purpose do you rise, Senator?

SENATOR DICKINSON: A point of personal privilege, I guess, if that's what we're all doing yet. May I ask Senator Carpenter a question?

PRESIDENT: Senator....stand by just a minute. Senator Carpenter, do you yield to a question from Senator Dickinson.

SENATOR CARPENTER: Certainly.

PRESIDENT: Go ahead, Senator Dickinson.

SENATOR DICKINSON: In your comments about enclosing one side in glass, is this a contemplation of the Executive Board at this time? Are you asking our opinions?

SENATOR CARPENTER: The Executive Board knows nothing about it and I haven't acted except to tell this Body that I have taken
